Experience

December 2022 - Present

Midlands Technical College, Columbia SC - *Network Technician*

Provide support as needed by the network team in a variety of different areas. These tasks required the ability to adapt and learn in a new field of IT and included Installation of network infrastructure and cabling, automation of tasks utilizing PowerShell and Python code, and troubleshooting and repair of network equipment failure.

March 2020 - November 2020

American Income Life Insurance, Columbia SC - *General Agent*

As a purely commission occupation, this position required strong organization in management of personal accounts as well as a team of other agents to ensure myself and my team reached the financial income required. Daily tasks included training of agents in the sales techniques and presentations, development and improvement of the sales presentation, and monitoring and assistance in meetings with potential clients
